

## TERATOGEN RESOURCE SERIES

**TER-10**

### Birth Information Record

A personal record for bringing together information about labour, birth, the newborn period and supporting clinical records.

**[darksideofmedicine.org](https://darksideofmedicine.org)**

Version 1.1

## Birth Information Record

**Purpose:** To keep key birth and newborn information together with the pregnancy record. Record what you know and keep original clinical documents alongside this resource where useful.

### IMPORTANT

This is a personal record, not a clinical interpretation of the birth. You do not need to fill every section.

## Baby & Birth Details

Baby's name: \_\_\_\_\_ Date of birth: \_\_\_\_\_

Gestation at birth: \_\_\_\_\_ Place of birth: \_\_\_\_\_

---

---

---

### Anything significant during labour or birth

---

---

---

---

---

---

## Baby After Birth

Use this space for information you want to keep about your baby's condition after birth, feeding, observations, treatment or neonatal care.

[illegible]

## Clinical Information & Supporting Records

| Document / information | Date | Where kept / notes |
|------------------------|------|--------------------|
|                        |      |                    |
|                        |      |                    |
|                        |      |                    |
|                        |      |                    |
